Travis Haynie

Front-End Developer

Portland, OR • 760-215-0087
travihay@gmail.com • Portfolio • GitHub • LinkedIn

Professional Summary

Aspiring front-end developer with full-stack bootcamp training and hands-on experience building applications using HTML, CSS, JavaScript, and React. Background in API integration, responsive design, and debugging, along with professional technical support and customer service experience at CDK Global.

Technical Skills

- ❖ Front-End: HTML5, CSS3, JavaScript, React(basic)
- ❖ Tools: Git, GitHub, VS Code, Netlify, Render, Browser DevTools

Projects

Personal Portfolio Website *(React/Vite – Deployed)*

- ❖ Built and deployed a responsive React portfolio showcasing UI design, projects, and troubleshooting.

Movie Watchlist App *(HTML/CSS/JavaScript)*

- ❖ Built a movie search application using the OMDb API, dynamic rendering, and DOM man

Color Scheme Generator *(JavaScript)*

- ❖ Created an interactive color palette generator using Fetch API and dynamic UI updates.

Education

- ❖ **Front-End Developer Bootcamp (In Progress)**
  Scrimba — React + JavaScript + UI Fundamentals
- ❖ **Full-Stack Web Development Bootcamp (Completed)**
  University of Texas at Austin – May 2024 to October 2024
- ❖ **Boot.dev Courses (Ongoing)**
  Linux Basics, Git & GitHub, Python Foundations
- ❖ **Bachelor of Science – Kinesiology**
  California State University, Northridge

Professional Experience

Technical Support Analyst | Quality-Assured Customer Support

CDK Global | April 2026 – Present

- ❖ Provide technical support for DMV documentation, vehicle registration, and titling systems.
- ❖ Use Oracle and remote desktop tools to troubleshoot client issues, manage password resets, and resolve application problems.
- ❖ Advise clients on technical solutions, troubleshoot system errors, and guide users through resolutions.

Vice President of Construction Management

WCH Precision Color | 2010 – 2026

- ❖ Oversaw project planning, scheduling, materials, and workforce coordination across multiple commercial job sites.
- ❖ Communicated with crews, contractors, and management to keep projects moving and resolve day-to-day issues.
- ❖ Built strong problem-solving and troubleshooting skills by handling unexpected challenges under pressure — strengths now applied to learning and debugging in software development.
